

Parks & Recreation

The mission of the Open Space & Recreation Sub-element is to create a community through people, parks, and programs. This mission is supported through the provision of a wide range of accessible, high-quality open space and recreational programs and facilities. All of the activities are conducted so that Sunnyvale can meet the open space and recreational needs of its diverse and changing community.

Parks & Recreation Projects

In support of the mission, the Parks & Recreation Department's project plan includes a wide variety of capital, infrastructure, and special projects. In general, the 45 funded and 10 unfunded projects submitted fall into one of four categories, including golf & tennis, pools & parks, the community and senior centers, and recreational services and support.

Golf & Tennis. For FY 2007/2008, there are 13 separate projects that relate to city-owned golf and tennis facilities in Sunnyvale. These projects deal mainly with maintenance, rehabilitation, and repair of existing facilities.

Pools & Parks. Pools and parks also have 16 projects included in this budget. The projects range from rehabilitation and repair of existing facilities to installing new playground equipment and skate park lighting. Also included are several projects that will improve the Raynor Activity Center and other Parks buildings.

Community & Senior Centers. The FY 2007/2008 budget includes 12 projects that will enhance, repair, or renovate both the Community Center and the Senior Center.

Recreational Services & Support. Four other projects are included in this budget. One would establish the Sunnyvale Historical Museum. Another would provide a mobile recreation vehicle for the City's after-school program. The third would support cooperative middle school activities. The final project in this category would finance the Parks and Open Space of the Future Study.

Table XIII shows the funded projects for Parks & Recreation, while Table XIV presents the unfunded projects. Project details are shown on the Project Information sheets, which appear on the following pages.
